

Support for AEC, the Telecommunications Regulator in Macedonia

Intercai Mondiale is supporting the Macedonian telecommunications regulator, Agency for Electronic Communication (AEC) as a member of a consortium formed by **AAM Management Information Consulting Ltd.** (AAM), and also including **Devoteam Group** (Devoteam). The support is being delivered under a European Union project to provide Technical Assistance to the Telecommunication Sector in Macedonia (*EuropeAid/121079/D/SV/MK*).

During 2006, Intercai Mondiale provided support in the following areas:

- ▶ The assessment and review of the Reference Interconnect Offer (RIO) from the incumbent operator
- ▶ Advice on the relevant cost models and their application, the selection of appropriate capital costs and allowable cost elements that should be used in determining interconnect charges
- ▶ Training courses covering LRIC, FAC and other aspects of interconnect costing
- ▶ Cost of capital assessment as part of the interconnect pricing initiative.

For further information about Intercai Mondiale and the Consortium please contact:
